3) Images Source

1. UNSPLASH : <http://unsplash.com>

4) Icons Source

1. FLATICON : <http://flaticon.com>

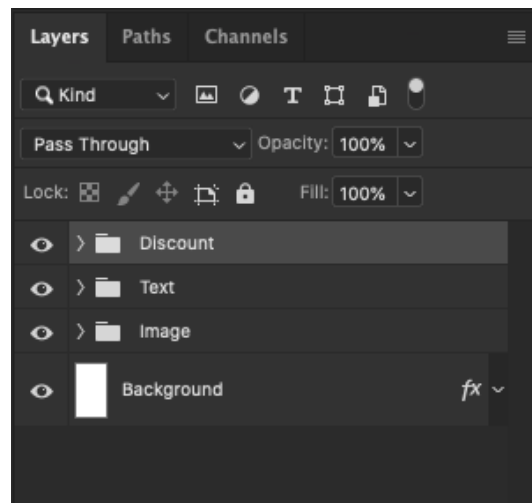

5) How to Edit PSD File

LAYER STRUCTURE

The PSD files are Easy to custom,
Well Layered and properly named.
The screen in the right side is the
Layer Structure:

This template using resolution 375px
812px.

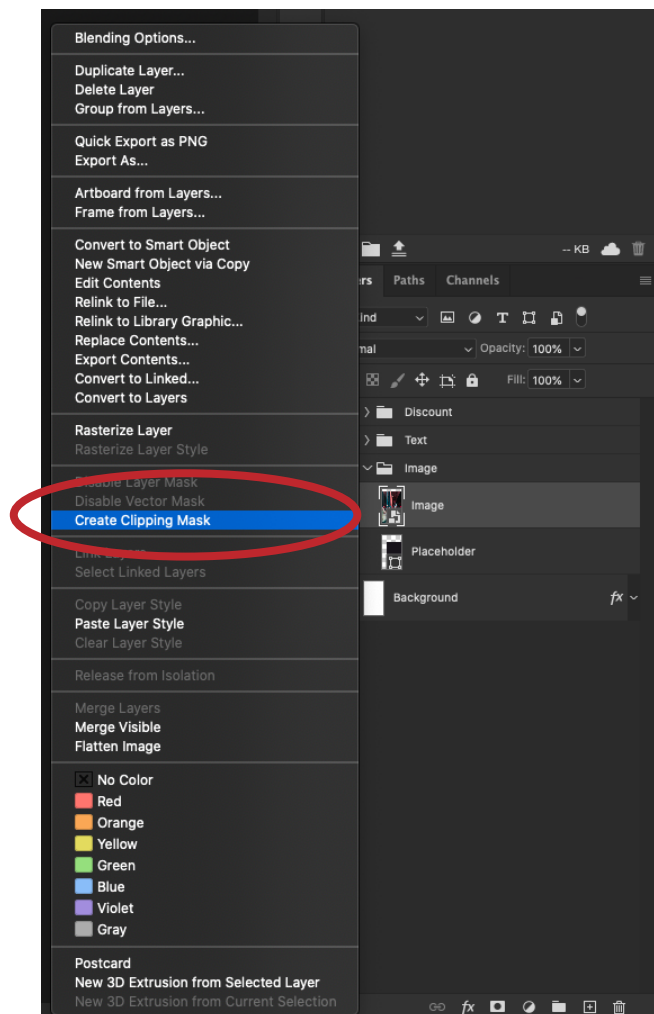

Please note: Layers structure maybe
different each other depend on how
the design look.

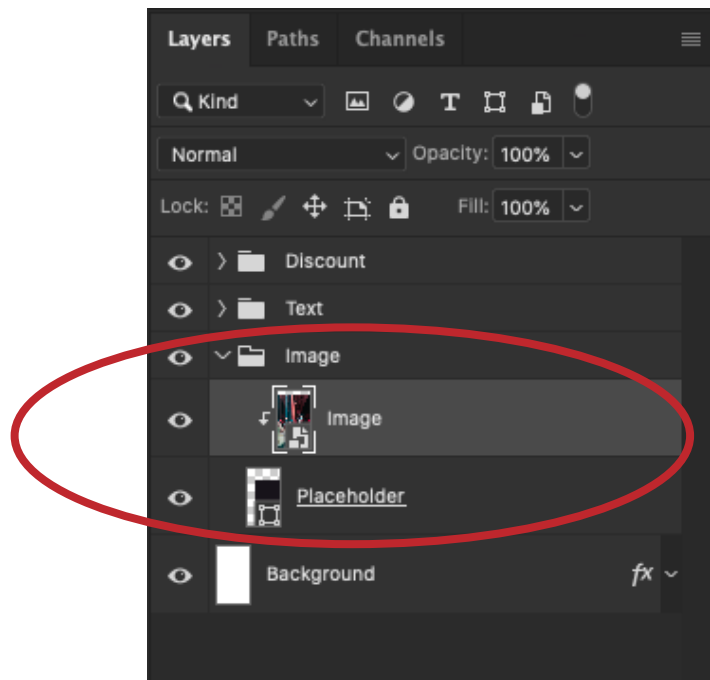

HOW TO INSERT IMAGE INTO THE CLIPPING MASK?

You can easily drop your
image on top of Layer that
says "Placeholder". For
example, I drop Image at
the top of Image holder
(see the picture).

Then right-click on the
Image layer and choose
"Create Clipping Mask"

After the image placed in the placeholder, you should have the layer structure like this. See the red rounded sign in the image.
